SCIENCE AND ITS MAJOR FIELDS**Chemistry****Biology****Physics**

INDEX

S #	TOPICS	T. SIGN
1)	Reading + Explanation	
2)	New terminologies	
3)	Questions/Answers	
4)	True or False	
5)	One Word Answer	
6)	Activities:	

Q: New Terminologies:

Words	English meanings
Laboratory	Place where experiment is conducted.
Chemist	Expert in chemistry.
Germination	Development or growth.
Transpiration	Exhalations of vapours.
Photosynthesis	A process in which plants make their food using sunlight.

Short Questions and Answers**Q: Answer the following questions:**

1. In which branch do we study matter and energy together?

Ans: In physics we study matter and energy together.

2. Write the name of any five things which are designed by engineers:

Ans: i. Buildings ii. Robots iii. Computers iv. Cell phones v. Refrigerators.

Long Questions and Answers

1. What are the scientific steps that lead to theory?

Ans: There are five scientific steps. It starts with:

- i. **Observation** and **Question**.
- ii. Observation becomes **Idea**.
- iii. Different Ideas carry different **Experiment**.
- iv. & v. After getting the result, **Conclusion** is made. This is called a **Theory**.

2. Why chemistry is said to be the most important branch of science?

Ans: Chemistry is said to be the most important branch of science for the following reason:

- i. All synthetic products are prepared on the bases chemistry.
- ii. It fulfills all requirements of human being.

Q: One Word Answer:

1. Study of anything that occupies space and has mass:

Ans: Chemistry.

2. Who uses physics to design and develop many structures?

Ans: Engineers.

3. In which branch biologists investigate humans, animals and plants?

Ans: Biology.

4. Who protects us from different types of diseases?

Ans: Doctor.

Q: True or False:

1. Biology, Chemistry and Physics are major branches of science. (True)
2. Special places where experiments are done are called hospitals. (False)
3. Biology is the study of anything that possesses life. (True)
4. Solids, liquids and gases are different forms of matter. (True)
5. Scientists in the field of physics are the physicists. (True)

Q: Activity # 01:

Do complete in book. (page # 3)

- Marconi
- Radio
- Edison
- Bulb
- Charles Babbage
- Computer

Q: Activity # 02:

Do complete in book. (page # 6)

Biology	Chemistry	Physics
Humans	Chalk	Fan
Animals	Pencil	Tube light
Plants	Soap	Computer

Q: Activity # 03:

Do complete in book. (page # 6)
