Q: Fill in the blanks:

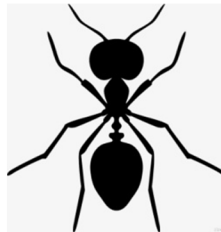

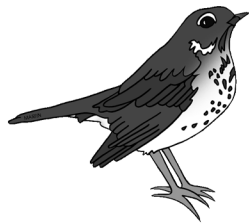

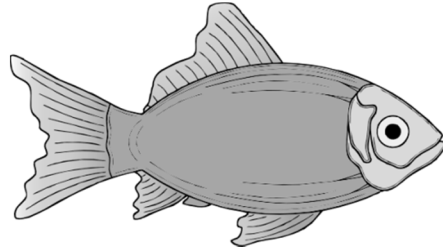

1. Living things **nutrient** to grow and survive.
2. Plants grow from **seeds** into a big adult plant.
3. Fish have **gills** to breathe in water.
4. Plants excreting excess water through **transpiration**.
5. Science broadly divides things into **living** and **non-living**.

Q: Choose the correct Answer:

1. Process of breathe is called:
(perspiration, **respiration**, sensitivity, reproduction)
2. Fish breathe in water from:
(scales, lungs, gills, eyes)
3. Who may breathe in both land and water?
(snake, frog, fish, lizard)
4. Who grows and can regenerate its tails when cut?
(elephant, crocodile, monkey, lizard)

Q: **Activity # 01:**

Do complete in book. (page # 9)

Nutrition	Growth	Reproduction
Respiration	Movement	Sensitivity

Q: **Activity # 02:**

Do complete in book. (page # 14 & 15)

Growth	Movement	Respiration
Excretion	Sensitivity	Reproduction
