Q2: Question/Answers:

i. What do you think is the greatest advantage of Internet communication? Give reasons for your answer:

A: The greatest advantage of internet communication is its instant connectivity. It allows people to communicate with others around the world in real time. This enables faster decision-making, remote work, access to information, and global collaboration.

ii. List the different forms of internet communication:

A: 1: Email 2: Instant messaging 3: Video conferencing 4: Social Media
5: voice over calls (VOIP) 6: Collaborative tools.

iii. Explain three uses of screen sharing?

A:

- Students can work together on documents, presentations, and projects by sharing their screens during virtual meetings.
- Teachers or instructions can use screen sharing to demonstrate interactive websites and educational games to students.
- Teacher can use screen sharing to guide students through homework assignments during live study sessions.

iv. Use an example to explain what collaborative tools are:

A: A Google Docs is an example of a collaborative tool where multiple users can work on the same document. Users in different locations can add or edit content, leave comments, and track changes.

Q3: CHOOSE THE CORRECT ANSWERS:

i. b

ii. b

iii. a
